**Little-Known Race.**  
In the extreme north of the Russian province of Archangel dwells one of the queerest and least known races of mankind. These are the Samoyedes, the wandering tribes of the vast frozen marshes which extend in these regions from the forest belt to the shores of the Arctic ocean. They worship idols and their sole wealth consists in reindeer. Living, the reindeer draws the sledges which transport the Samoyede and his belongings from spot to spot in search of the game and fish, which constitute his principal sustenance. Dead, it provides him with meat in times of scarcity, and with skin for his family tent. With its sharpened bones he tips his wooden fishing harpoons and hunting spears. Its skin he uses to sew together the shirt, breeches, and boots of seal skin, which are the attire alike of the Samoyede men, women and children.

**Airplane's Future.**  
There are innumerable uses for the airplane and the great thing for every business man to remember is that airplanes are not merely instruments of war but that they are practical commercial vehicles, which can be flown safely by any man who is capable of driving a fast car and which can be relied upon as a method of transportation at all times. When once established with the proper financial support you may be assured that the airplanes of tomorrow will be radically different in design and performance, etc., as the present day locomotive is from Stephenson's locomotive "The Rocket" of 1825. Chicago Post.

**No Need to Stay "Canned."**  
Folks deserve to be "canned" who stay down with the first defeat. No man is fit to rise who is untested. But too often men take the testing as the assignment to defeat. The possibility of such a thing should stir all the red blood to rebellion. The real man rises in proportion to the task and becomes stronger with the struggle. Only the unfit are long "canned," for they never learn from experience. The really fit come from the ordeal stronger to meet new situations because of trial and rejoice that they can win on their own merit. So do your best and you can show the world you can't be "canned." Grit.

## You Have No Right to Die From Cancer

BEWARE OF THE ADVICE WHICH SAYS "WE WON'T WORRY OVER IT UNTIL IT BOTHERS YOU!"

By George F. Burba.

YOU have no right to die from cancer. You have a right to live, regardless of this treacherous disease. It is your duty to live, not to die. But it is all with you, you can do it, please about it.

To die from cancer, if you are determined to do so, all you have to do is take no note of Nature's warnings. Go about your business for a time, ignore the symptoms which Nature sends, pay no attention to the little warnings which you receive, and the end is as certain as it is painful.

To live regardless of cancer means only that you must pay attention to the warning, consult a competent physician, ignore the persons who say that "it doesn't amount to anything," and submit to the men of science who are devoting their time and attention to the elimination of these maladies which beset the sons and daughters of Adam.

A million and a half people die in the world every year from cancer. Ninety per cent of them could be saved from untimely death if they would not in time. No one of these

victims of the disease but knows long in advance that there is something wrong. An examination by a competent physician or surgeon would assure them of the presence of the disease, and in nearly every case relief could be obtained.

A lump forms, a gland is swollen, an obstinate and persistent indigestion, some irregularity of an organ, Nature's method of telling you that a cancer is developing, but you heed it not. A month goes by, or a year, with little inconvenience suffered. And then one day there is the gnawing activity of the disease; then you go to a physician or surgeon to learn the truth. A cancer which you had gone a year ago; if only you had heeded the first intimation that there was something wrong—away back when you didn't suppose anything could happen to you!

Cancer week has been so designated simply to call attention to the prevalence of the disease, that those who are suffering from it may go and be examined by one who knows. It was not set aside to alarm anyone. It is not called cancer week to benefit the physicians and surgeons. The people back of the movement do not

have to resort to any sharp practices in order to make a living. They know the menace of the disease. They are familiar with the progress of the malady. They are acquainted with the tendency upon the part of mankind to put off anything of this kind. May 9 to May 15 has been designated as cancer week, that men and women may pause to consider the terrible ravages of this century-old affliction that is becoming more and more frequent. Cancer week was not proposed to destroy hope, by talking about the awfulness of the disease; it was proposed as a week of hope—for there is hope for every victim of the disease if he or she will but go early enough to an expert and be treated. There is hope if one will not rely upon unscientific quacks, or traditional remedies. The healers and quacks have no remedy for the disease; they have no cures; they can do nothing but allow the disease to progress until death is certain. But science is doing much, and one's fate is so certain if he does not go according to science that unselfish men and women are this week devoting their energies and their time and their money to letting the truth be known.

**HERE'S A NEW ONE**  
We are in receipt of a copy of a  
Federal law that we confess we did  
not know existed. It comes from the  
Internal Revenue department and we  
take it as a matter that cannot be ig-  
nored. It seems that under article 49  
of the regulations governing the  
printing of tickets, every print shop  
must furnish the Internal Revenue  
office the number of tickets printed,  
place where to be used, name and ad-  
dress of party ordering same and al-  
so a sample ticket. Failure to do so  
the printer is held to be guilty of  
misfeasance, and upon conviction  
shall be fined not more than \$100.  
We are compelled under the notice to  
give the names of all parties order-  
ing tickets from April 1st, 1919 to  
date.

**VISIT LOCAL PLANTS.**  
In order that they might receive  
additional information concerning  
subjects which they have been study-  
ing in school, members of the chem-  
istry class of the Mansfield high  
school were inspecting the chemistry  
departments of the Ohio Brass Com-  
pany and the Aultman & Taylor com-  
pany today.  
Next week other members of the  
class, which is a large one this year,  
will be taken through the same plants.  
This is a custom that is observed each  
year with good results.  
The trips are being conducted by  
W. D. Sterrett, instructor of chemis-  
try, in the high school. —Mansfield  
News.  
**THIRTY-FOURTH ANNIVERSARY**  
Wednesday was the thirty-fourth  
anniversary of the May flood in 1886  
when great damage was done particu-  
larly about Xenia and over the county.  
This date will always remain in his-  
tory as Massie Creek was the high-  
est ever known, then or since.  
**AUCTION ROBERTS ESTATE**  
The auction of the Roberts estate  
that is to take place next week is an  
event of extraordinary interest in the  
history of Ohio and particularly of  
Xenia.  
This property which the heirs ab-  
solutely refused to be sold has in a  
great measure interfered with the  
growth of that city, is now placed at  
the mercy of the public for what ever  
price it will bring.  
It is within one block of the court  
house and the magnificent home of  
the Roberts is included.  
In Frank D. Dodds, who purchased  
the property, and his associates in  
the Chamber of Commerce of Xenia,  
who are lending them assistance for  
the improvement of Xenia. Believe  
this is the best means of developing  
interest in the speedy development  
of that city, and has engaged the  
Gerrits Realty Experts of New Or-  
leans to sell it for him.  
This organization is the largest of  
its kind in the world and are coming  
to Xenia direct from a big sale they  
are holding in Newark, N. J.  
Mr. Charles S. Gerrit, the general  
manager, and the auctioneer of the  
organization, is the well known  
"Billy Sunday of Real Estate."  
Mayor McFarland has received a  
communication from Miss Caroline  
Farrell, of Neton, N. J. asking for in-  
formation concerning the death and  
burial of her brother, Raymond, of  
the 65th Co., 6th Reg. of the Marines,  
who died in service. No one by that  
name is known here.

THE TIME--  
NO APPETITE**  
And Color Is Bad, Too—Muddy and  
Blotched. Know What the  
Trouble Is?  
**IT IS PROBABLY YOUR BLOOD**  
The Blood Often Is Sluggish in the  
Spring and Needs Purifying—Pepto-  
Mangan Will Help  
The blood is life itself, and when  
your blood gets out of order, nothing  
seems right! You are glum, discour-  
aged and out-of-sorts. Food loses its  
taste, and sleep does not seem to re-  
fresh you. You don't want to work,  
and cannot have a good time.  
Then you say to yourself, "What's  
the matter with me, anyway?" May-  
be you think of your blood, and may-  
be you don't.  
Spring is here. And Spring, more  
than any other season, little time peo-  
ple suffer most from blood disorders.  
Sometimes it is just "Spring Fever,"  
—but conscientious, hard-working  
folks really suffer from Spring Fever.  
They drive themselves, and worry  
and fret—but get little done. Neither  
body nor mind will function properly  
till the blood has purged itself of  
winter accumulation of poisons—till  
it ceases to be sluggish—till it has re-  
gained its color and strength.  
Years ago people took sulphur and  
molasses in the Spring to hold their  
blood. But nowadays, instead, they  
take Pepto-Mangan, a nice-tasting,  
agreeable and quickly effective blood  
tonic. Pepto-Mangan is approved by  
physicians everywhere. It has helped  
thousands of run-down, listless people  
get back their old-time vigor and en-  
thusiasm.  
Everyone in your family should  
take a good blood purifier and builder  
this Spring. Get Pepto-Mangan today.  
Your druggist has it, in both liquid  
and tablet form. Ask for Gude's Pepto-  
Mangan and see that the name  
Gude's is on the package.—Adv.

### Cookies, Cakes and Crackers

#### Yes, "Edgemont" Cookies, Cakes and Crackers Taste as Good as They Look

My friends say that "Edgemont" are delightful treats. And I am sure  
that not only you, but your friends who "drop in" and your family, at each  
meal and between meals, will find them deliciously tasty.

It is so nice to have a supply on your pantry shelves. For you find what  
women do not like to have ready for friends and family—Especially what  
such delightful treats are so easy to get.

And Such a Variety from Which to Choose

Milk-raisin, water, molasses and honey  
sauce—plain or seed—chocolate, vanilla,  
lemon, ginger, spice or nutty flavored.  
Dessert in pudding, custard, cream,  
sugar, nutmeg—the highest examples of the  
baker's art.

Tasty, fairly cracker of different kinds  
like butter, soda, lemon, reception, lunch.

Choice combinations of baked confections  
with selected fillings, preserves, marshmallows,  
fruit, nutmeg and coconut, coated in milk,  
chocolate.

Delicious water cake as Graham, vanilla,  
nutmeg, apple, cinnamon.

You will find them all in the list of Good-  
Goods baked by The Green & Green Co.

### EYE NEEDS REGULAR BATHS

One on Rising and the Other on Reti-  
ring is Recommended to Se-  
cure Good Results.

For the daily care of the eyes there  
should be two baths. The body must  
have its bath. The face must have its  
cleansing. Why not the eyes? Espe-  
cially as the eye, with its thick lid  
and the fringe of eyelashes is a dust  
trap, and the slightest speck of dust  
allowed to remain beneath the lid may  
cause irritation of the lid and inflama-  
tion of the eye.

For the eye's daily bath I offer you  
the choice of several lotions. My fa-  
vorite is: Ten ounces of purest rose-  
water. Apply with an eye cup, turn-  
ing the eye cup upside down so that  
the half-open eye is completely wash-  
ed by the contents of the cup. Hold  
it thus for 30 seconds, or, if not un-  
comfortable, for a full minute.  
Throw away this rosewater. Rinse  
the glass and give the eye a second  
bath.

If the eyes are unduly irritated, the  
bath can be repeated several times.  
Ordinarily a bath in the morning on  
rising and another at night on reti-  
ring are enough.

Some of my friends who have beau-  
tiful eyes prefer elderflower water to  
rosewater. It is equally good and  
should be applied in the same way.  
Another excellent eye bath is one-  
half an ounce of witch hazel; one-  
half an ounce of distilled water.  
Shake well in bottle and apply with  
an eye cup. One other bath I must  
tell you about that is most excellent  
for strengthening the eyes: Six drops  
of boracic acid, one wine glass of dis-  
tilled water.

A bath in borax water is highly  
beneficial and has the advantage of  
being always convenient. Even while  
traveling one may always carry a box  
of borax. Moreover it is safe, because  
borax will only form a 4 per cent solu-  
tion, that is, only 4 per cent of it will  
be absorbed by water. A borax bath  
is very strengthening. If the eyes be  
delicate or the person so prejudiced  
against experiments that she is not  
willing to introduce this substance di-  
rectly into the eyes, a silk handker-  
chief or a soft cloth dipped into borax  
water and pressed upon the eyelids is  
both efficacious and soothing.

The old-fashioned remedy of cold  
tea leaves pressed upon the lids has  
value, not from the tea leaves intrin-  
sically, but from the cool, moist con-  
tact. Cloths dipped in water are quite  
as good.—New York American.

**Engine Watered While Traveling.**  
There is an ingenious device by  
which a train may pick up water with-  
out stopping. There is a shallow  
trough between the rails which is  
filled with water. The engine is  
equipped with a small scoop which  
lowers into the trough and thus picks  
up the water as the train goes along.

### LEGAL NOTICE

Sealed proposals will be received  
at the office of Andrew Jackson, Clerk  
Cedarville, Ohio, until 1 o'clock P. M.  
June 1, 1920, for the purchase of  
Eight Thousand (\$8,000.00) dollars  
of bonds of The Cedarville-Township  
Rural School District, issued for the  
purchase of providing funds for the  
transportation of pupils of said dis-  
trict, to school, and building a garage  
for said trucks.

Said bonds to be dated June 1, 1920,  
and shall mature one each year for  
sixteen years, commencing April 1,  
1921, all of said bonds to be in the  
denomination of five hundred (\$500-  
00) dollars, to bear interest at the  
rate of 5 1/2 per cent per annum, pay-  
able semi-annually, Oct. 1st and April  
1st of each year, evidenced by cou-  
pons attached thereto, interest and  
principal payable at The Exchange  
Bank, Cedarville, Ohio.

Said bonds are issued under au-  
thority of the laws of Ohio, and vot-  
ed for by the electors of said dis-  
trict, April 27, 1920.

Said bonds will be sold to the high-  
est and best bidder, at not less than  
par and accrued interest.

All bids must be accompanied by a  
certified check for five (5 per cent)  
of the amount of bonds bid for.

The said board reserves the right  
to reject any or all bids.

No conditional bids considered.

Bids shall be sealed and endorsed  
"Bids for bonds," addressed to An-  
drew Jackson, Clerk, Cedarville, Ohio.

By order of the Board of Educa-  
tion.

Andrew Jackson, Clerk.

### Tea With Butter and Salt.

Tibetans, who are perhaps the most  
primitive and unchanged branch of  
the Chinese race, and adhere closest  
to the ancient customs, make tea with  
butter and salt in place of milk and  
sugar. The butter, according to F.  
Kinde Ward in the Wide World Mag-  
azine, is apt to be hairy, owing to the  
playful method of manufacture, which  
consists in kicking around a yak-skin  
of milk, the hairy side of the skin  
being turned in. The drink, he says,  
is pleasant enough, though to really  
appreciate it one wants to look upon  
it as soup and not as tea. The be-  
verage, which is a frothing, chocolate-  
colored fluid, is one of the staples of  
Tibetan fare, and no Tibetan ever  
travels without his wooden box of but-  
ter, his brick of tea and little bag of  
gritty salt.

### The Sunflower in Russia.

Sunflower cultivation has become an  
industry in southern Russia, where the  
people have found the seeds a substi-  
tute for olives in making oil. The Rus-  
sian eats the kernel. An acre of sun-  
flowers yields about 60 bushels of  
seeds, and these in turn yield more  
than 80 gallons of oil.

Unique Trip Which Started Monday Is Expected to Consume About Seventeen Days.—Route to Be Taken.

A "Hike of Love" is the newest thing in walking stunts. This unique trip has been undertaken by Captain Mary Heddle, a Salvation Army lassie, who is walking across the state of Ohio, starting from the Public Square in Cleveland, Monday morning, May 2, and performing acts of charity and kindness in every city, town and village along her route from the lake city to Cincinnati, where she is expected to arrive on May 25, the closing day of the Army's Second Home Service Fund Appeal.

The lassie's route will carry her through Dover, Elvira, Oberlin, Norwalk, Bucyrus, Marion, Delaware, Columbus, London, Springfield, Dayton, Middletown, Hamilton and Cincinnati.

The entire journey, aggregating 270 miles, is expected to consume about 17 days, which means an average of approximately 16 miles a day.

In the course of her hike, Captain Heddle will carry messages of cheer to the sick and suffering; she will bring relief to the poor, pray with the unfortunates in the prisons, and perform acts of charity and kindness all along the path.

Expected to Enjoy It.

"It is a real hike of love," she told the reporters, "and I am walking in the service of God and the Salvation Army, and that is why I know I shall have plenty of opportunity for helpful work and why I am confident that I will have strength. And I expect to enjoy it immensely."

Captain Heddle is a young woman, recently married, a forceful speaker, and a girl of great personal charm. Although she has taken long walks before, she says that this journey across the state of Ohio is the most ambitious thing she has yet attempted. She will be attired in her regulation Salvation Army lassie blue! Tight weight uniform, with bonnet, and besides a valise will carry with her only a small army musette bag thrown across her shoulders. Captain Heddle will visit all the Salvation Army Corps headquarters that lie within her route and will use them as bases of supplies.

Edward Smith, 57, farmer near Oxford, was killed when kicked over the head by a horse.

Building in Cleveland will cost from 15 to 25 per cent more during the next 12 months due to the spring wage scales agreed upon.

Burned body of Ray Miller, 38, Massillon, was found on a cinder bank along the railroad tracks near Akron.

During a family quarrel, Ralph Chase, 30, shot and seriously wounded his grandson-in-law, Rudolph Keener, 30, a farmer of Leroy, near Painesville, and then shot and killed himself.

Third attempt of Edith Metzger, 17, to end her life was successful when, in view of her sister and neighbors, she threw off the top of her head with a shotgun at the home of her sister, Mrs. E. H. Vandine.

C. M. Filson, tobacco dealer of Alliance, and H. L. Stark, Alliance chief of police, were severely injured near Ravenna in an automobile collision.

Because of farm labor shortage and the backward season, Judge Middleton of Champaign county common pleas court excused all farmers on the grand and petit juries.

Bill Johnson, 65, who was visiting his son at Bellefontaine, was killed by a train. It is believed he wandered to the track during the night.

Leroy Willie of Columbus was chosen president of the Ohio Council of Postal Employees at their meeting held in Dayton.

Thirty-two Cleveland banks have installed private alarm systems as safeguards against holdups and burglaries.

Four hundred faculty members and students at Kent state normal school were vaccinated when four mild cases of smallpox developed.

Miss Mary Kelly, 53, a patient in a private sanitarium at Oxford, committed suicide by drowning herself in a cistern.

Hocking Valley Mining company bought coal property of the Lorain Coal and Dock company north of Athens for \$225,000.

In Praise of Silence.

Carlyle says, "Out of silence comes the strength." We know it does. The finest, best thinking comes from quiet and silence. The greatest deeds are the result of thought. The best writings are done in the silence of the study. We look up into the sky on a starry night. There is a peace and silence from it that speaks understanding. Silence is not loneliness—it is peopled with the best of all that there is in life to those who will understand.—Detroit News.

# BIG SALE OF Ladies' Coats and Suits

Spring Suits \$34.90

Spring Coats \$22.90

Specially Priced to You Because They Were Specially Priced to Us!

We are quick to take advantage of any chance that comes our way to provide you with better things to wear, at less cost.

The manufacturers of women's Suits and Coats often have certain styles that cannot be duplicated because of lack of materials—or garments that have been used as selling samples—or overstocks of some models—and these they are willing to dispose of at lowered prices.

It was through just such circumstances as these that we were able to procure the splendid Suits and Coats offered in this sale—and every cent of the manufacturers' reductions to us is given to you in these remarkable prices.

The Suits at \$34.90

show every correct and new fashion feature of the season—semi fitting loose box, Eton, and ripped styles—made of high quality Men's Wear Serge and Tricotine—mostly in navy blue.

The Coats at \$22.90

are the smartest of the very swagger short sports models and three quarter length—made of fine Wool Velours and Polo Cloths—in many shades of blue and the tans that are so popular for spring.

We quote no comparative prices or "values" on these—but it will take only a glance to tell you that the sale prices are many dollars less than the prevailing prices for such styles and qualities. The same will show you, too, that every garment in the lot is very new in style.

**Lead and Steel.**  
Lead is said to act like steel at ordinary temperatures in liquid air. It will serve as a helical spring, for example. This behavior of soft non-elastic metals is interesting. It shows how very important temperature is. Just as iron is soft and inelastic at a high red color, so lead is dull and soft at ordinary temperatures, for it is well on its way to be melted.

**Tree Furnished Timber for Church.**  
A unique church has recently been completed in Santa Rosa, Cal. Every piece of timber in it, except the floor, was cut from one tree—a giant redwood, 15 feet in diameter. The tree, which produced 78,000 feet of timber, grew on a high mountain range near Greenville, 15 miles from the Pacific ocean, and when cut was found to be about eight hundred years old.

**To End Wire "Singing."**  
To prevent the "singing" of telephone or telegraph wires passing over houses, these are matted by putting on them small olive-shaped pieces of lead, or fitting corks on to them.

**Clouds That Foretell Storms.**  
From the hue and texture of the distant clouds something can be learned of the character of the storm that produces them. The hydrographic bureau at Washington informs ship captains that when the cirrus cloud plumes seen radiating from the storm are faint and opalescent in tint, the approaching storm is an old one of large area; but if the clouds are "of snowy whiteness, projected against a blue sky, it is a young cyclone of small area but great intensity."—Youth's Companion.

Buy Paint by the "Daylight" Method

#### HIGH SCHOOL NOTES.

The Freshman Class entertained the Sophomore Class in the Schoolhouse Monday evening at 7:30. Refreshments were served and all enjoyed a fine time.

"Mrs. Tubbs of Shantytown", the Senior class play, will be given in the opera house to-night at 7:30. The play is a farce comedy in three acts. Music and recitations will be given between acts in order to make the entertainment reach the height of perfection.

The annual commencement of the High school will be held in the school auditorium on Tuesday evening, May 18. No orations will be given but Dr. W. R. McChesney will deliver an address. There will be no charge for admission, and all are invited to attend.

The High school baccalaureate services will be held in the auditorium on Sabbath evening, May 16. Rev. W. F. Harriman will preach.

The Junior banquet will be given at the home of Miss Dorothy Oglesbee on Wednesday evening, May 19.

Examinations will be given Thursday, May 20. This is the last day of school. The school picnic will be held at Lakeside Park, Dayton, Friday, May 21.

#### Revenge.

Revenge is wrong. Let alone that the wisest and best of all judges has condemned it, it blackens the hearts of men. It distorts their views of right. It sets them to devise evil. It causes them to think unjustly of others. It is not the noblest return for injury, not even the bravest way of meeting it. The greatest courage is to bear persecution, not to answer when you are reviled, and when a wrong has been done you to forgive.—Thackeray.

#### Powder Misapplied.

On the train home from Chicago I carried my aunt's parasol and her box of powder. Arriving at our home town, I handed her the parasol, forgetting I had put the powder in it. A crowd of town boys was at the station to meet the 5:20, including auntie's beau—she was a young aunt. As said beau opened the parasol for her, the two of them were showered with face powder. Did the crowd scream? I got mine when we reached home.—Exchange.

### Summer Reasons For This Sedan

Triplex Springs Insure Riding Comfort on All Roads.  
Overland Four-Door Sedan Insures Comfort  
In All Weather

THE SUPERIORITY of the Sedan for autumn, winter and spring is even more emphasized in the wide range of summer motoring. It's thick permanent top is a cooler shield from boiling sun. Breezes are freely admitted or entirely excluded at will. Rain, dust and sudden cold, are shut out at your command by heavy plate glass which never cuts off your vision or leaves you feeling "Shut in." Now the Overland Sedan adds to all this convertible convenience, the riding comfort of Triplex Springs, and extraordinary light weight economy.
